

Pillola

Design Verter Turrone
2006

A smooth surface, with shiny reflections, curves and stretches recreating the rounded shape of a pill. The result is a pouf with an irresistible shape that brings to mind reassuring sensations: the sweetest candy, the smoothest stone, the most pleasant toy to touch. A seat available in different sizes, finishes and colours, capable of transforming any space into a refined, fairy-tale, relaxing place.
