

SCREEN POT

Proposta in due formati, SCREEN POT assolve le diverse funzioni di divisorio o fioriera. Caratterizzata da un decoro particolarmente scenografico, prevede l'alloggiamento della pianta nella vasca alla base. Finiture disponibili per uso interno: Cor-ten cerato, ferro Mastral brunito o Verniciato. Finiture disponibili per uso esterno: Cor-ten, acciaio inox Aisi 304 Mastral brunito o Verniciato.

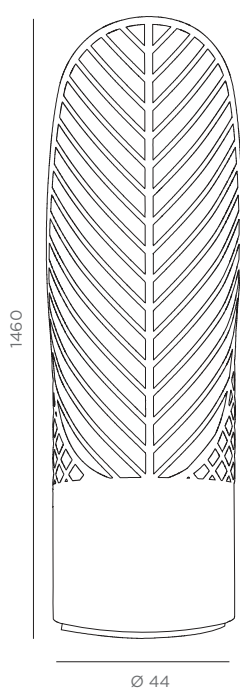

Available in two different formats, SCREEN POT performs multiple functions, as a partition or flower box. It features a particularly spectacular decorative motif, and can house plants in the base. Available finishes suitable for indoor use: Wax treated Cor-ten, bronzed or lacquered iron. Available finishes suitable for outdoor use: Cor-ten, bronzed or lacquered stainless steel Aisi 304.

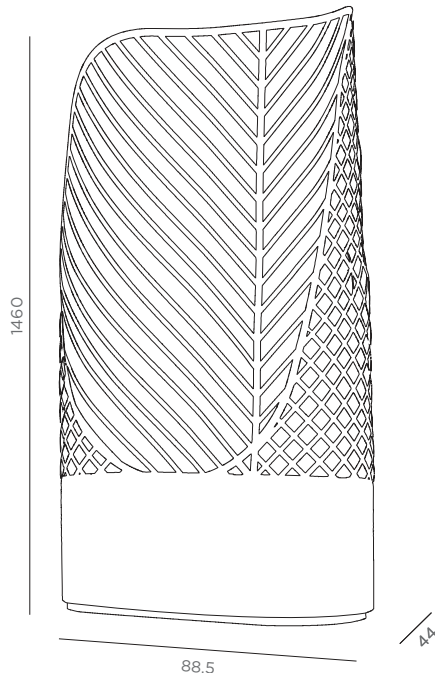

*ENKADRAIN

Materiale coibente e filtrante, costituito da doppio TNT e reticolato plastico, utile a dissipare il calore assorbito dalla lamiera e a drenare l'acqua in eccesso.

Insulating filter material, that consists of TNT and entangled fragments, fit to dissipate the heat absorbed by the metal and to drain any excess of water.
