

BONALDO

Idole

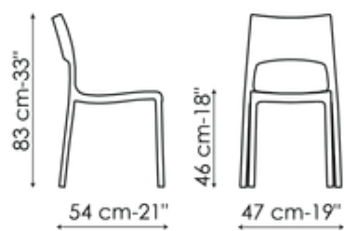

Designer: Dondoli and Pocci

With a sobriety of use and image, emphasised by the design of the backrest, which is marked by its single opening, Idole is a lightweight stackable chair, with monocoque body in resistant plastic material. Available in five elegant colours, it can fit into every environment with style. The Idole designer plastic chair is a robust and comfortable object for everyday use, thanks also to the use of innovative materials and production techniques and its extreme ease of handling. The curvature of the backrest is emphasised by the flared line of the back legs, for an essential but dynamic result: a look that makes it versatile in use, suitable for public or private spaces, perfect for the dining room, the bar area but also for offices or meeting rooms.
