Geometric Table, Geometric Table Wood

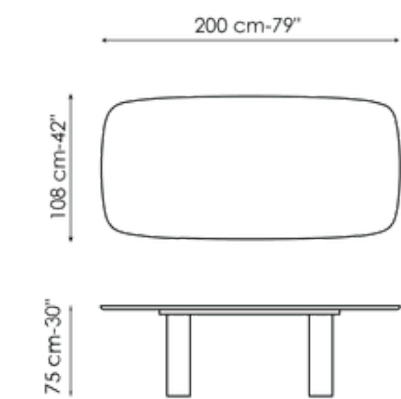

Designer: Alain Gilles

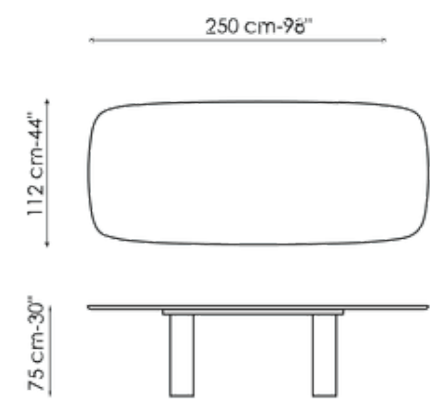

Résumant d'importantes recherches stylistiques et matérielles, la Table Géométrique est une table évolutive qui joue sur la perspective : avec un effet visuel hypnotique, elle apparaît différemment selon le point de vue, conférant à l'espace de vie une personnalité surprenante. Le concept s'appuie sur des silhouettes caméléons, à commencer par la base : ses quatre pieds en forme de goutte d'eau semblent tantôt épais, tantôt fins et acérés, offrant une perception changeante de leur poids visuel à mesure que l'on tourne autour de la table. Cette présence scénique impressionnante est à la fois fine et gracieuse, grâce à ses formes arrondies. Cette table à manger moderne et classique est disponible en trois finitions précieuses monomatières : un effet spécial d'argile appliquée à la spatule, donnant à l'ensemble de la structure un aspect sculptural ; la Geometric Table Wood, où l'ébène est utilisé pour le plateau et les pieds, comme si la table était taillée dans un seul bloc de bois ; et enfin, la Geometric Table avec un plateau et des pieds entièrement en marbre. La Geometric Table est également disponible en version de quatre mètres de long, la Geometric 400, une taille conçue spécialement pour les bureaux et le secteur de l'hôtellerie.
