

DIX BOUGIES

design Odile Decq

**LUCE
PLAN**

Type:	Suspension
Light source:	A14S10W: led module 67W, 2700 K, CRI 90 Dimming range: 1%, 0-10V, 1-10V, triac/elv all at 100-277V A14S06W: led module 40W, 2700 K, CRI 90 Dimming range: 1%, 0-10V, 1-10V, triac/elv all at 100-277V max 2000 mA 33,6 Vdc SELV
Product use:	Indoor
Materials:	Aluminium structure, paper/technopolymer diffuser
Colors:	Matt black
Description:	Dix Bougies has a technical structure composed of a long horizontal aluminium extrusion and four other parts that intersect in an asymmetrical and apparently random way. The passage of current inside the arms conveys it to the ends, where LED light sources are enhanced by a diffuser made with a sophisticated paper based on a mixture of cellulose and synthetic fibers (diameter 13", height 6").
Rating:	120-277V ~ 50/60 Hz A14S10W + A14/3T 80W A14S06W + A14/3T 48W
