PRODUCT TYPE

Table & low table

Vacía is a collection of sculptural tables and low tables in which solid marble takes center stage, creating a perfectly measured interplay of contrasts between delicacy and solidity. Its design is born from the precise meeting of three volumes—the tabletop, the base, and a solid marble foot—balanced in a minimal gesture that transforms stability into pure elegance.

A collection distinguished by its sculptural functionality and a serene, architectural, and sophisticated presence that enhances any residential and contract environment, from corporate projects and offices to meeting rooms, hotels, and restaurants.

TIPOLOGÍA DE PRODUCTO

Mesa y mesa baja

Vacía es una colección de mesas y mesas bajas escultóricas en la que el mármol macizo es el encargado de crear un juego de contrastes perfectamente medido entre delicadeza y solidez. Su diseño nace del encuentro preciso entre tres volúmenes, el sobre, la base y un pie de mármol macizo, equilibrados en un gesto mínimo que transforma la estabilidad en pura elegancia.

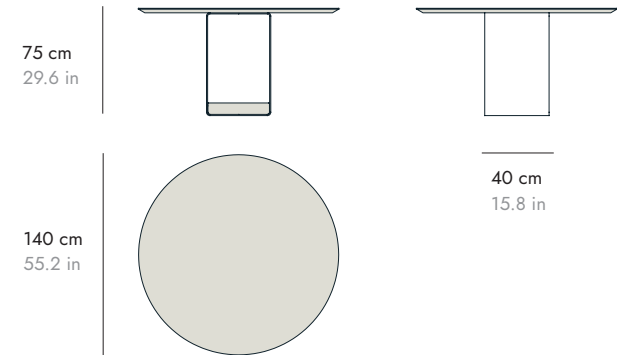

Una colección que se distingue por su funcionalidad escultórica y una presencia serena, arquitectónica y sofisticada que realza cualquier entorno residencial y contract, desde proyectos corporativos, oficinas, salas de reuniones, hoteles y restaurantes.

SPECIAL DIMENSIONS MEDIDAS ESPECIALES

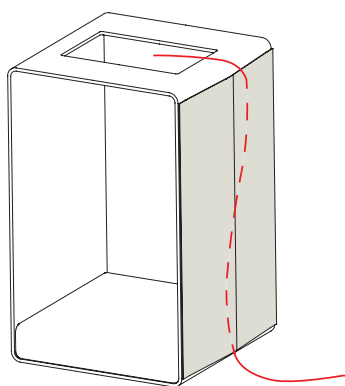

Vacía table is available in special sizes upon request.
Please contact our sales department for a quotation.

La mesa Vacía está disponible en medidas especiales bajo pedido.
Por favor consulte con el departamento comercial para su cotización.

CABLE MANAGEMENT PASO DE CABLES

ACC091

VACÍA BASE CABLE GROMMET

Slightly bent steel plate magnetically attached to the base, allowing cables to pass through the interior space while keeping them hidden. Thanks to the built-in magnets, this accessory can be easily attached and removed, and positioned on either of the base's exterior sides.

PASACABLES BASE VACÍA

Chapa de acero ligeramente plegada e imantada a la base para permitir el paso del cable por el espacio interior, dejándolo oculto. Gracias a los imanes incorporados, este accesorio se puede colocar y retirar con facilidad, así como posicionarse en ambas caras exteriores de la base.

MATERIALS

Wood

Top made of MDF board E1 (low formaldehyde content) veneered with natural oak or walnut wood.

Marble

Top and base pedestal made of Marquina or Carrara marble with polished finish.

Porcelain

Top made of Dekton or XTone with polished finish.

Silestone

Top made of Silestone with polished finish.

Fenix

Top veneered in Fenix with white or black finish.

Lacquered

Top with textured lacquer in white or black finish.

Steel

Base with folded steel structure finished in textured white or black lacquer.
