Aspen

Designer: Massimo Castagna

Aspen is a collection of coffee tables characterised by the irregular shape of the top. The surface features a recessed section on one side, defining the distinctive feature of the design and creating a soft, flowing geometry. A thin edge follows the perimeter with a clean, essential line, enhancing the material of the top, available in glass or ceramic.

The shape of the tables makes them complementary and allows them to be combined in different configurations: the two elements can come together to expand the available surface or be used separately, adapting to different spatial needs. When used individually, they can be placed alongside sofas and armchairs as independent elements, bringing both function and character to different areas of the space.
